PROJECTS

Restaurant Website | HTML, CSS, VS Code

- Designed a complete static website for a restaurant with menu, gallery, and contact sections.
- Applied responsive design so the site works well on both desktop and mobile screens.

Simple Calculator | Python

- Built a command-line calculator supporting basic arithmetic operations with error handling for division by zero.

Library Management System | Java

- Developed a console app to manage books and members using core OOP concepts and ArrayList.

ACTIVITIES

- Active member of the Computer Science Department student club at Kalindi College.
- Practicing coding problems on HackerRank and LeetCode to strengthen problem-solving skills.
